National Company Law Tribunal defers Go First aircraft lessors hearing to Sept 1

NEW DELHI: Revival of Go First is likely to face more delay as the National Company Law Tribunal (NCLT) on Friday deferred the hearing of applications filed by the aircraft lessors to September 1. This deferment by the insolvency tribunal comes after the Delhi High Court denied Go First the permission to fly lessors' aircraft for scheduled maintenance.

A two-member bench of NCLT, comprising Mahendra Khandelwal and Rahul P Bhatnagar, has directed the resolution professional (RP) of Go First to submit details of the subsequent developments in the next 10 days, including the status of the maintenance of the leased aircraft. Moreover, the tribunal has also asked the RP to file the reply over the pleas filed by three new Go First lessors in two weeks and a rejoinder, if any, by them next week. During the proceeding, Senior Advocate Ramji Srinivasan, representing the RP, informed the tribunal that Go First has approached the Supreme Court against the orders of the Delhi High Court.

Earlier a single-member bench of the Delhi High Court had permitted the lessors of Go First to access and inspect the planes they had leased to the airline. This was also upheld by the division bench of the high court, following which Go First moved to the apex court. A senior aviation industry expert says that revival prospects of Go First, which stopped flying on May 3, is becoming challenging day by day as it continues to face hurdles in courts and tribunals.

Forex Update: India's Foreign Exchange Reserves Decline \$3.1 Billion To \$603.9 Billion

NEW DELHI: India's forex reserves declined \$3.165 billion to \$603.87 billion for the week ended July 28, according to the latest RBI data. This is the second consecutive weekly drop in the reserves after the \$1.987 billion decline to \$607.035 billion in the previous reporting week.

In October 2021, the country's forex kitty reached an all-time high of USD 645 billion. The reserves took a hit as the central bank deployed the kitty to defend the rupee amid pressures caused majorly by global developments since last year. For the week ended July 28, the foreign currency assets, a major component of the reserves, decreased by USD 2.416 billion to USD 535.337 billion, according to the Weekly Statistical Supplement released by the RBI. Expressed in dollar terms, the foreign currency assets include the effect of appreciation or depreciation of non-US units like the euro, pound and yen held in the foreign exchange reserves.

Govt defers laptop import curbs till Nov 1

NEW DELHI: In a big relief to consumers and big laptop manufactures, the government has deferred import restrictions on laptops, all-in-one personal computers, and tablets. As per the guidelines provided by the Directorate General of Foreign Trade (DGFT), the import of these devices can be carried out without requiring a valid licence until October 31.

This means the mandatory requirement of licence for bulk imports of computers, laptops and tablets would come into effect from November 1, 2023. The government has on Thursday announced restrictions on imports of computers, laptops and tablets in order to give a boost to local manufacturing. However, the decision created a lot of concerns over potential disruption in the supply of these goods during the festive season when significant sales of electronic items take place. There were also concerns that prices will shoot up ahead of the festive season. Earlier, the officials from the Ministry of Electronics & Information Technology (Meity) had said there will be no disruption to goods in transit, and that tech companies will get sufficient time to apply for the license, and it can easily be applied online.

The Meity officials told media that

companies will get the licence within 10-15 minutes after applying on the DGFT portal. The official said one company can apply for as many licenses with different branches and cities. "The prices of these goods - laptops, tablets, personal computers, etc won't rise and there will be no disruption to goods in transit," said the official.

"This is not at all about license raj. It is about regulating imports to ensure trusted and verifiable systems and ensuring India tech ecosystem uses trusted and verified systems only that are imported and/or domestically manufactured trusted systems/products," said Meity minister Rajeev Chandrasekhar in a tweet.

Meanwhile, experts are of the view that the abrupt decision to curb imports of personal computers, laptops, or tablets may have stemmed from the need to boost production-linked incentive (PLI)

scheme 2.0, which has been a slow starter. After the successful implementation of the scheme for mobile manufacturing, the government launched a similar scheme for large hardware. However, it didn't achieve the same level of success as the mobile scheme. Therefore, in June 2023, the government re-launched the scheme

doubling the incentives to Rs 17,000 crore. As per Meity officials, only two companies have filed applications under the scheme as of July 31. Companies can file their application till August 30. Experts believe the decision to curb imports of these devices can pose challenges for companies, which do not opt for the PLI scheme for large electronics and fail to tie-up with Indian contract manufacturers.

Import licence

Requirement of licence for bulk import will be effective Nov 1Govt has announced restrictions on imports of laptopsAs per DGFT guideline, import of these devices can be carried out without requiring a valid licence till Oct 31Govt decision created concerns over potential disruption in supply of these goodsThere were also concerns that prices will shoot up ahead of the festive season.

Mahindra's profit nearly doubles to 2,774cr in Q1

CHENNAI: Mahindra & Mahindra's Rs 417 crore investment for a 3.53% stake in RBL Bank will not go beyond the permissible 9.9% stake at any point and will stay at 3.5% "till we see compelling value in increasing it in the future within the permissible limit," said Mahindra Group CEO & MD Anish Shah. "We have no intention of getting into a bank at this point and we do not expect to go higher (than 3.53%) either. At this level, we are the third largest shareholder and this will help us understand the business more," he added. The company clocked a 98% jump in net profit for the first quarter of the current fiscal at Rs 2,774 crore up from Rs 1,404 in the year-ago quarter. Standalone revenue jumped 23% to Rs

24,368 crore compared to Rs 19,813 crore in the year-ago period. Ebitda at Rs 3,547 crore was up 46% year-on-year compared to Rs 2,422 crore in

Q1FY23. The company's consolidated PAT was up 60% at Rs 3,508 crore.

The company, which will invest Rs 10,000 crore in its electric vehicle business between FY22-27, has so far invested Rs 1,600 crore of which Rs 800 crore came from the Rs 1,925 crore investment into MEAL (Mahindra Electric Automobile Ltd) by BII. M&M, said Shah, is "intentionally not diluting too much in MEAL but raising capital to match cash flow to business requirements". M&M, said executive director Rajesh Jejurikar, is getting 48,000 new bookings for its auto range every month.

Byju's misses timeline set by creditors to amend USD 1.2 billion loan terms

BENGALURU: Troubled edtech firm Byju's has missed an August 3 timeline set by its creditors to amend a \$1.2 billion term loan. On July 24, the steering committee of ad-hoc term loan lenders, who collectively own over 85% of the edtech firm's \$1.2 billion term loan, said the successful execution of the amendment would immediately solve for the loan's acceleration and end all open litigation while avoiding further enforcement actions.

Sources said discussions are on and it is progressing well in the right direction and expected to close at the earliest. The next meeting with the lenders is scheduled for early next week. Byju's spokesperson said, "No deadline has been missed as August 3 was merely a hopeful date that was likely to be scheduled for a sign-off."

Earlier in June, it had filed a complaint in the New York Supreme Court to challenge the acceleration of the \$1.2 billion TLB (the firm secured this loan in November 2021) and sought to disqualify Redwood, an investment management firm. It had skipped paying \$40

million interest. Meanwhile, Davidson Kempner Capital Management, a US-based investment fund, is said to have initiated the reconstitution of the board of Byju's subsidiary Aakash Educational Services in order to improve governance. "AESL board is being strengthened with three Think and Learn (Byju's) nominees and two independent directors," a spokesperson from Byju's said.

CEO Byju Raveendran might be the only representative of the parent on Aakash board. This comes a few days after Byju's parent Think and Learn has sent a legal notice to Aakash founders due to their alleged resistance to complete a share swap. The company had acquired Aakash for about \$950 million in a cash and stock deal in 2021. Recently, two independent directors of Aakash Educational Services have resigned from the board.

In June, Byju's announced that it will launch the IPO of Aakash mid-next year. The upcoming IPO will provide a significant capital infusion to bolster Aakash's infrastructure, broaden its reach, and extend high-quality test-prep education to a larger number.

McLeod Russel India approves execution of binding term sheet with Carbon Resources Pvt Ltd

NEW DELHI: The board of India's largest bulk tea producer McLeod Russel India has approved the execution of a binding term sheet with Carbon Resources Pvt Ltd to sell a part of their tea estates for Rs 700 crore, bringing the company a step closer to resolve the outstanding debt problem with banks. The proceeds of the garden sale would be utilised by McLeod to reach a one-time settlement (OTS) with banks which collectively have an exposure of about Rs 1,600 crore.

As part of the deal, the Jalan family-owned Carbon is going to acquire 15 gardens which are collectively capable of producing about 18 million kg of tea annually. The sale of the assets is pursuant to a debt resolution process to be undertaken by the lenders under the RBI's Prudential Framework for Resolution of Stressed Assets dated June 7, 2019 for an OTS of the debt owed by the company to its identified lenders, McLeod informed the bourses.

"The proposed transaction is subject to execution of the final definitive agreements and the satisfaction of

conditions precedent as stipulated in the term sheet and receipt of such permissions and consents, that may be required, including the consent of the shareholders and the approval of the

identified lenders of the company of a OTS of the debt owed by the company to such identified lenders," the notice to the exchanges read. Khaitan family-led McLeod has 31 gardens in Assam and two gardens in Doorga, capable of producing 45 million kg of tea. With overseas tea estates in Uganda and Vietnam, the annual production of McLeod is about 69 million kg. The Telegraph had earlier reported that

McLeod had offered Rs 1,030 crore as an OTS amount to banks. "The Carbon deal hinges on banks getting approval for the OTS," said a source aware of the development. Two companies are looking at closing the transaction by December 31, 2023 which indicates Carbon, if successful in acquiring the gardens, will have to spend additional money to maintain the estate during the winter months. The expense from Carbon, one of India's leading electrode paste makers, will be Rs 75 crore for the winter works, taking the total cash outgo for the deal to about Rs 775 crore. The execution of a legally binding terms sheet is going to be a milestone in the Carbon-McLeod saga which had its fair share of ups and downs. Carbon had picked up a 5 per cent stake in September 2022 and sought to force a change in management in McLeod by making a non-binding offer to banks. They entered into an exclusive discussion in January which later expired as McLeod was sucked into insolvency proceedings initiated by IL&FS Infrastructure Debt fund.
